

DIVISION OF ENVIRONMENTAL MANAGEMENT

August 6, 1992

MEMORANDUM

TO: Lorraine G. Shinn, Regional Manager
Washington Regional Office

THROUGH: Roger K. Thorpe, Water Quality Regional Supervisor *[Signature]*
Washington Regional Office

FROM: Scott Jones, Environmental Technician *S. Jones*
Water Quality Section, WaRO

SUBJECT: Division of Planning and Assessment
Project Review Form
Project #93-0056, Proposed US 70 Havelock Bypass
Craven County

The above subject project has been reviewed by this office. The project involves the proposal for the NC Department of Transportation to construct the US 70 Havelock Bypass (four lane, divided highway). Preliminary comments are as follows:

1. Any wetland impacts should be studied for alternatives and/or minimization of impacts.
2. Stream crossing proposals must provide information showing no restriction of flow will incur.
3. If any fill in waters or wetlands is proposed, a Water Quality 401 Certificate will be required.

This office will supply additional comments for this proposal when the Environmental Impact Statement has been prepared and submitted for review.

If you have any questions or comments, please call this office at (919) 946-6481.
